

Norcross

Training Facility

History

1989 The SE Region opened the first Vehicle Refinish Training Center in the U.S.

Focus was placed on the application of Sikkens products to our end user.

The footprint was 18,250 sf.

- 2 spray booths
- 2 prep decks
- Color correction room
- Office space

2021 After the divestment of the company owned branches, and the relocation of the AkzoNobel N.A. HQ from Norcross to Nashville, the Oakbrook Parkway site welcomed several employees (operational and administrative).

2020 AkzoNobel invested in additional s.f. to create the first Commercial Vehicle training facility. The primary focus is on the CV segment customers.

- Training more than 250 students annually
- Added an additional 5,500 s.f.
- One truck spray booth
- One new prep deck.
- New mixing room
- New student classroom with video capabilities
- New board room
- Updated kitchen for the students and customers

Norcross Today

Operational and training support headcount: 23 employees

Footprint: 23,500 s.f.

Activities:

- Customer application training,
- Distribution
- Field support administration.
