

Strongsville

Metal and Packaging R&D Center

History

- Glidden paint brand was purchased by ICI in 1986, R&D in Strongsville.
- AkzoNobel becomes global leader in decorative coatings with purchase of ICI for \$16.2 billion in 2008.
- AkzoNobel divested its decorative paints business in North America in 2012, including the Glidden brand.
- AkzoNobel then moved the remaining packaging coatings marketing team and R&D into the new \$10M Strongsville lab.
- Grand opening of Strongsville Laboratory in 2015.
- The Strongsville site includes specialized laboratories for innovative resin, packaging and coil coatings research, and a packaging coatings application center.
